

Auditoria® SmartPay

FASTER PAYOUTS • INCREASED SECURITY • STREAMLINED USER EXPERIENCE

The first-of-its-kind, Auditoria's SmartPay offers integrated Artificial Intelligence-enhanced payments processing and automated cash posting, built into an enterprise order-to-cash SaaS application.

WHAT'S SO "SMART" ABOUT AUDITORIA?

Auditoria **SmartFlow Skills** are discrete, pre-packaged, purpose-built accounting applications that perform a wide range of critical finance back-office functions, automatically. **SmartBots** act as "junior accountants" that execute the SmartFlow Skills, engaging with systems of record, shared inboxes and key stakeholders. SmartBots capture actions and hand-off to humans using workflows to escalate when intervention is needed. Purpose-built for finance, Auditoria SmartBots integrate with the SmartCollections SmartFlow Skills to offer full-featured payment processing powered by Stripe to provide greater visibility into an organization's cash position.

AUDITORIA® SMARTPAY SMARTFLOW SKILLS | SMARTCUSTOMER O2C

ACTIVE DUNNING PAYMENT LINKS

Pre-configured for payer profiles with invoices, payments are captured via dunning communications and natively reconciled with ERP applications. No code required to easily configure email links to process payments more quickly.

AUTOMATED PAYMENT POSTING

SmartBots handle the posting of payments against invoices intelligently, accounting for transaction fees, and tracking payment posting times depending upon the payment method. Payment transactions are seamlessly reconciled with the ERP to ensure integrity of data.

INTELLIGENT INSIGHTS

SmartPay SmartBots extract insights from email remittances and promise-to-pay dates, tracking payments submitted and processed with fully exportable datasets for custom off-line analytics. Interactions are captured, providing detailed audit and granular account analytics for clearer cash positioning.

PRIORITIZED WORKLISTS

Streamline collections teams' efforts with a daily worklist of strategic recommendations and prioritized actions. Curated by SmartBots, the worklist is dynamically updated to maximize efforts and outreach, track payment receipts, invoices, and disputes for quicker action and faster decision making.

CONFIGURABLE PAYMENTS FRAMEWORK

SmartPay is a highly secure and configurable payment infrastructure powered by Stripe with fully API-enabled processing. It offers a compliant workflow that features integrated tax reporting and the ability to set payments types and transaction fees.

GLOBAL PAYMENTS COVERAGE

SmartPay offers global payment routing and accelerated payouts with support for payments from 180+ countries, with 135+ presentation currencies and 15 settlement currencies for greater payment flexibility for customers.

HOW IT WORKS

BETTER VISIBILITY AND ACCURACY

- Unified, rich payments reporting across dunning, payment, and collections activities provides deeper insights.
- Pre-built reports visualize real-time invoice and payment status with calculated totals and open / closed details for surgical insights.

STREAMLINED USER EXPERIENCE

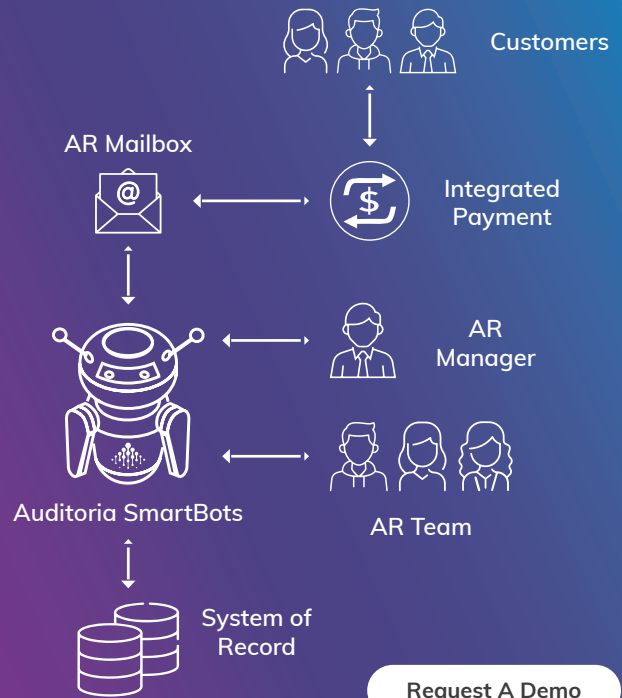

- Built into the SmartCollections workflow, SmartPay eliminates the need for custom portals.
- Seamlessly integrated payments replace many of the mundane, repetitive cash posting tasks that are error-prone and tedious.

GREATER SECURITY AND COMPLIANCE

- SmartPay features built-in KYC and AML checks with PCI-DSS and PSD2 compliance.
- Native ERP reconciliation ensures accuracy and data integrity, with transactions that are up-to-date and compliant.

Auditoria's SmartBots provide a system of engagement, utilizing the AR inbox and systems of record to automate payment functions to improve cash performance.

HOW WE HELP

RAPID TIME TO VALUE

See value in days, with minimal IT dependence, thanks to pre-built integrations with leading ERP, collaboration, and email systems, giving finance teams the ability to move at lightning speed.

IMPROVED COMPLIANCE AND GOVERNANCE

Deliver accurate, complete, and timely financial reporting to shareholders, investors, and auditors by ensuring that data is always audit-ready.

SECURITY AND PEACE OF MIND

Remove the stress and friction in the finance function with a secure and reliable system of unparalleled financial precision that captures an audit trail of activities in the system.

LOWER TRANSACTION FEES

Get faster payouts and lower fees for more accurate cash position forecasting and analytical insights. Reduces overall transaction fees and improves DSO and cash performance.

ERROR-FREE TASK EXECUTION

Remove human-introduced errors from the equation to ensure that transactions reconcile across systems of record.

PURPOSE-BUILT FOR THE FINANCE FUNCTION

Crafted with advanced AI technology, Auditoria's solutions were explicitly built for the finance function, with machine learning and natural language processing capabilities that understand finance vocabulary and context for the richest, most reliable AI-enabled finance workflows.

“Almost every finance team I talk to seeks integrated payment offerings in the order-to-cash business process to streamline collections and cash posting while recovering thousands of hours wasted in manual back-office processing.”

— R “Ray” Wang | Principal Analyst & Founder
Constellation Research, Inc.

About Auditoria

Auditoria accelerates breakthroughs for finance by deploying AI-driven, SaaS automation to help corporate finance reduce working capital dependence and improve overall cash performance. Auditoria allows organizations to regain thousands of hours the finance team would otherwise spend on administrative, transaction-based non-value-added tasks, helping to alleviate pressures and elevating the state of the finance back office. Improve the lives of finance teams everywhere, and give them superpowers using **Auditoria.AI** Follow Auditoria on **LinkedIn** and **Twitter** to stay connected.
