

5 KEY FINDINGS FROM

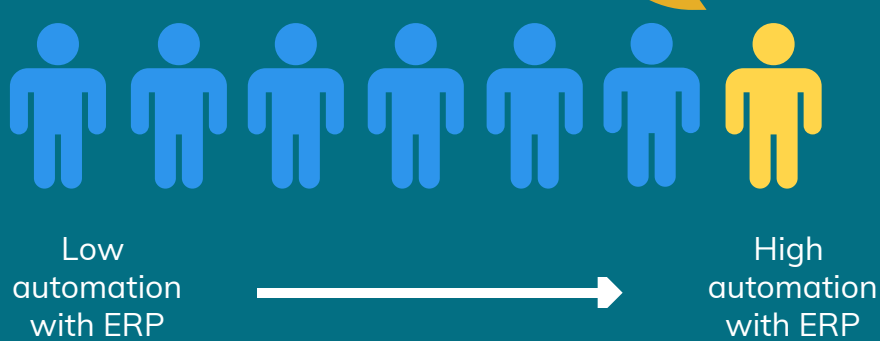

The Auditoria 2020 Survey of Automation in ERP and the Finance Back Office

1

Accounts Payable and Receivable are **the most manual** back office processes.

Automating more than 60% of functions.

2

Only 1 in 7 respondents find their ERP is sufficient to meet their automation needs.

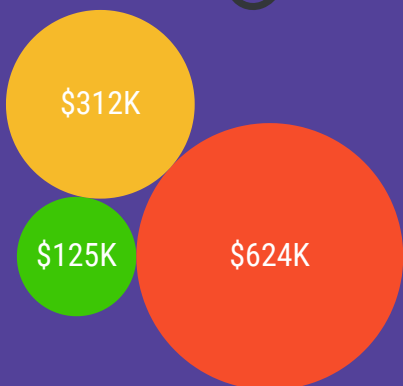

A massive amount of **time is wasted** on repetitive follow-up activities.

3

What's the cost of a **lost day?**

- A 20-person team = 1,920 hours = \$125K/year
- A 50-person team = 4,800 hours = \$312K/year
- A 100-person team = 9,600 hours = \$624K/year

4

72% spend up to **one FULL DAY** each month checking work done by outsourcers.

5

75% report that gathering, analyzing, and communicating data is **most time-consuming**.

Enterprises globally, regardless of industry vertical or scale, have a significant opportunity in not just **increasing automation**, but in **improving business resiliency** and streamlining all customer and supplier interactions, from invoicing to payment processing to collections.”

— Tyler Sloat, CFO, Freshworks
